workshops can be  
used for  
re-certification  
/ seat hour credits for  
educators.**

Today's world has become overwhelmingly interconnected. Not only do we trade more than ever before, but our financial systems have become more inextricably linked. As a result, world events across the world have an important impact on the lives of people everywhere. Decisions we make have a resounding impact on all sectors of society.

Join the World Affairs Council DC's **Professional Development Workshop** for High School educators of all subject areas, and learn more about how economics impacts foreign policy and international relations. **Participants will receive a certificate for 6 professional development credits.**

Discussion topics include:

- Understanding the Trade Balance
- China Export - U.S. Import
- Balance of Payments
- Outsourcing and the Production Chain  
What does buying American really mean?
- Exchange Rates, Monetary and Fiscal Policy
